# Muhammad Umer

Software Engineering Student
Gulshan-e-Ravi, Lahore | +92 334 4736717 | l233085@lhr.nu.edu.pk
Roll No. L233085
GitHub: https://github.com/Umer-3085
LinkedIn: https://www.linkedin.com/in/muhammad-umer-986293362

## Objective

Software Engineering student with a strong foundation in software development, object-oriented programming, database systems, and web technologies. Skilled in Java, JavaScript, React, Node.js, Python, SQL, and software testing methodologies. Experienced in building academic and personal projects involving full-stack development, problem-solving, and team collaboration. Passionate about learning new technologies, developing scalable software solutions, and applying engineering principles to real-world challenges.

## Education

Bachelor of Science in Software Engineering | 2023 - 2027
FAST - National University of Computer & Emerging Sciences (FAST NUCES), Lahore, Pakistan
CGPA: 3.68 / 4.0

## Projects

Accura | Python, AI Agents
Python-based automation platform using multi-agent AI for quality assurance workflows. Generator and evaluator agents automatically reprompt until satisfaction thresholds are met. Includes configurable pipelines, persistent evaluation-cycle logging, and a RESTful API.
SyncBoard | MERN, Socket.IO
Real-time collaborative task and workflow manager. Features live board synchronization, drag-and-drop workflow stages, role-based editing, activity logs, in-app notifications, JWT authentication, and MongoDB persistence.
Prep Buddy | Java, React
Adaptive test preparation platform with diagnostic tests, practice test generation, timed exam simulation, instant grading, and performance analytics.
Additional: Auto Service Buddy (Figma HCI prototype), Logisim (Java), Library Management System (C#, WinForms, SQL Server), Car Parking System (MERN).

## Experience

Teaching Assistant | FAST NUCES | Feb 2026 - Jun 2026
Assisted in delivering the AHCI course and supported undergraduate students with assignments, quizzes, and project guidance.
Software Engineering Job Simulation | Walmart | 2026
Completed an advanced software engineering simulation focused on real-world development practices and problem-solving.

## Skills

Languages: Java, JavaScript, C++, Python, SQL, Assembly (x86)
Frontend: React.js, HTML5, CSS3, Bootstrap, Flutter
Backend: Node.js, Express.js, ASP.NET MVC, REST APIs
Databases: Microsoft SQL Server, MySQL, MongoDB, SQLite
AI: AI Agents, Prompt Engineering, API Integration, MCP Concepts, Classification, Clustering
Design: Figma, Wireframing, Prototyping, User-Centered Design
Testing: JUnit
Concepts: OOP, DSA, DBMS, Layered Architecture, HCI, Agile, Scrum, SDLC

## Tools

GitHub, Linux, Visual Studio Code, Android Studio, Atlassian Jira, Figma, Visual Studio Community, Wireshark, Postman, Microsoft SQL Server, DOSBox, Ubuntu, Markdown, JupyterLab

## Certifications & Training

5 Days AI Agents: Intensive Vibe Coding Course | Google & Kaggle | 2026
Computer Vision | Kaggle | Jun 20, 2026

## Achievements & Honors

Silver Medalist - 3rd semester
Dean’s List - 2nd, 3rd, 4th, 5th, and 6th semesters
